Subject: Century International Quality ERA Award (CQE) for
QA TECHNIC

Dear Sirs:

The B.I.D. world congress, with meetings over the past twelve months in Paris, London, Madrid, Geneva, Frankfurt and New York, has gathered companies from 117 countries. During that time, participating leaders submitted their proposals for the Century International Quality ERA (CQE) Award which will be presented in Geneva, Switzerland, on Sunday March 11th, 2012.

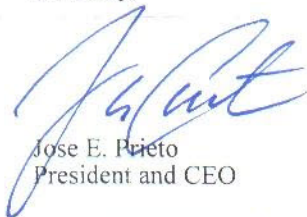

On the basis of CQE regulations and criteria of the QC100 Total Quality Management Model, QA TECHNIC has been designated to receive the CQE Century International Quality ERA Award in the Gold category in Geneva.

Those companies selected are leaders in their areas, their countries or large corporations which demonstrate excellence within each designated sector, increased market share, improved results, as well as sustainability. The prestige of the BID award winners (see www.worldquality.org) will allow you to appreciate the value of the BID award worldwide and the importance of participating at this convention. BID's Quality Mix technology is designed for awarded companies to continue being recognized as leaders and increase quality awareness.

The award presentation will take place during the International Quality Convention in Geneva, on March 10th and 11th, 2012, in the spectacular InterContinental Genève Ballroom across from the United Nations European Headquarters. The program of this event is enclosed, detailing all the benefits and conditions.

This prestigious award, given to leaders by leaders, is sponsored by 26 media publications (www.imarpress.com), all oriented towards change and market trends, focused on innovation, growing brands, technology, new products, business news and finance.

Sincerely,

Jose E. Prieto
President and CEO
